

We can choose to use our growing knowledge to enslave people in ways never dreamed of before, depersonalising them, controlling them by means so carefully selected that they will perhaps never be aware of their loss of personhood. *Carl Rogers, Darwinist psychologist*
Knowledge is power. *Francis Bacon*
The Truth will make you free. *Jesus Christ*

To ever be 'free' in our information and data rich world, we would have to put aside any cultural superstitious knowledge or traditional spiritual understanding and just consider the scientific data. We would have to begin with the question, 'What is human life and where does it come from?' The ability to create life begins with data inscribed into the DNA molecule of the first cell of human existence at conception, (the progenitor cell). Have you ever seen identical twin babies? It seems like a miracle to

see two children exactly the same age having the same physical features, but it all begins with the data in the DNA of the first cell. In the case of identical twins the mothers egg (for reasons unknown) cleaves over two of the first progenitor cells creating two separate embryos! Both babies will grow into adulthood as people who look identical

Monozygotic ('Identical') Twins
Monozygotic (MZ) or identical twins occur when a single egg is fertilized to form one zygote, (hence, 'monozygotic') which then divides into two separate embryos.

because the information in the first two cells is almost identical! The data is prescriptive information for physical outcome. Now just think about that! This encoded information in the first cell is prescriptive, not just for the appearance of hair and eye colour, but of the actual cellular construction of the hair and eyes themselves, not to mention the optical nerve that connects it to the brain and all the neurons that connect the brain to the nervous system of the body to coordinate muscular movement, heart beat and blood circulation. The information in the progenitor cell is not just prescriptive for the shape and size of the legs but the very bone and muscle tissue that the legs are made of, as well as the skin that keeps it all in place! And that's why identical twins are born the same! Amazing, it's absolutely amazing, but it's the same for all babies, indeed for all living creatures! The data or plan to construct tall buildings comes from intelligent and well trained people. Genetic 'life' is a gift of information from

God to you. You exist because one all knowing God through his eternal Word provides the biological data for you to be created and then to create life, and more than that - He instills in human beings a conscience as an appreciation for all life. Procreation brings responsibility, love and respect for life and a genuine heart felt happiness.

You 'evolve' from one cell to 70 trillion cells in your mothers womb not by chance but by an ingenious plan of construction that continues throughout your life. The effect of the prescriptive information for human existence in the first cell goes on long after birth in terms of physical growth and mental development. Identical twins continue to grow up the same because of the continual division of cellular activity based on the initial information in the first cell. For this prescriptive information to succeed, it requires immediately after birth the non-organic matter of oxygen (O₂) in the lungs and a continuous supply of water (H₂O) in the stomach throughout life. Likewise for this initial prescription for life to continue to grow there must be other organic life created because the child needs organic food in the stomach to grow as well. So then there is a continual dependency on non-organic matter for life to exist and a co-dependency of all organic matter in the make up of the food chain. This makes us totally dependent on the Creator God of all matter who is the Author of all the initial genetic code of every living thing. (Even the information for organic life is written on non-organic matter in the arrangement of the DNA molecule).

Physical and emotional opposites have to attract and become one flesh to love and nurture children for life. The ability to create life is a gift from God to heterosexual couples. Life is a gift from God to you. You exist because one all knowing, Almighty God through his eternal Word, provides the biological data to create all genetic life, and instills in human beings a conscience to guard life and have an appreciation for it. Procreation brings responsibility, love and respect for life and a genuine heart felt happiness. A little baby who is born without a conscience is totally reliant on the parent's conscience for survival. Here then is one of the most amazing aspects of human life. Unlike animals humans have a conscience that not just nurtures

children into a self sustaining life but nurtures into adulthood and moral education as well. So beyond the co-dependency of all organic life there is a 'co-responsibility' of conscience for life, reproduction, survival and mutual support. The same Word from God that gives us a physical existence - gives us the Maker's handbook as well. This Word is called the 'Law of God'. In human life this extension to instinctive conscience makes us different from the animals. It is a God given ability to add $1 + 1 = 2$. We have an ability and freedom to make right choices. This works and that doesn't. Now it would be morally wrong to teach a child that $1 + 1 = 3$. So we see in all of technology, engineering and architecture an outward explosion of conscience that creates not just the cities of the world with our transport and communications - but the moral codes that sustain our civilizations as well. When we get the calculations wrong, our buildings fall down and our planes crash. When we get the moral code wrong, we go to war and the outcome of the last World War is that we now have the scientific ability to burn up our world and everything in it. If we become atheistic and unaccountable to Almighty God then instead of mutual dependency and mutual responsibility we will have mutual self-destruction. Trying to unite people through mass communication, the Internet, Facebook and especially Google has only divided the world even more; one group against another, one individual against another individual until there is nothing left for anyone but to protest, achieve mob rule and mass murder.

At the height of imperialist Europe, the Englishman Charles Darwin in his ignorance proposed that life only happened by chance. Evolution is a religion of blind faith in blind chance, a pseudo-science that genetic data as prescriptive information for a physical outcome dispels. Consider the history and social impact of Charles Darwin's theory of evolution. The old Social Darwinism of western **Imperialism** says you must kill other people's children to create a prosperous world where your own children are 'elevated man', the chief animal over all other animals as if everything and everyone else exists for your 'master race'! The Social Darwinism of **Communism** says you

Surviving twins used for medical experiments - being led out of Auschwitz concentration camp 1945

must kill your own children to create a collective world where mankind is as 'god' - the animal above all other animals as if everything exists just for the super powerful people who are more equal than others! The Social Darwinism of **Materialism** however tells you to kill your children to create a consumerist world where you are 'a god' as if everything exists solely for you and your entertainment!

In the twentieth century alone the impact of Darwin's theory has killed and murdered upwards of 150 million children of 'other people'. Genocide after genocide, race war upon war and culturally forced abortion - all of which can be laid at the feet of Darwin's stupid theory and his perverted atheistic preachers of hate.

THE BEAST OF DARWINISM
(six heads - no brains - no heart and no Intelligence)

Those who despise the normal prescription for life through homosexuality, adultery and abortion - actually hate God. They hate their God-given conscience for a responsible life and cherish selfish irresponsibility and superficiality. This is *heterophobia* - a hatred for what is normal and good and right. It murders 'other peoples children', even unborn children in the sanctity of their mothers womb, abandons children through adultery and molests children through religion of state. What is needed is not another religion, especially secular atheism. What is needed is a *relationship* with Almighty God and an accountability to his Word. The simple gift of life from God that is a little child, was 'killed' in our hearts by Darwinist propaganda. Our generation have killed their own children for Consumerism while our own brothers and sisters were murdered by Communism, Nationalism or Imperialism! The history of the modern world is our personal history as well.

What we all need is a change of heart. We need to be 'born again' but how could such a miracle happen? *Thankfully Almighty God who authored our genetic life - is also the Author of love and forgiveness as well.* We have all sinned by breaking His laws and commands. We live from day to day in a fallen world controlled by self-empowered, self-centred lunatics. How could a righteous Judge not condemn us all to death? Well it wasn't easy. God sent His eternal Word to earth, His only Son through whom He created us to take responsibility for us. For us this Word lived and died,

for us He rose from the dead. This is Jesus, Messiah of Israel, the Saviour of the world. You can read all about Him in the Hebrew Bible. The first three chapters of the first book called 'Genesis' tells why we are born with an affection for self-centredness, that given no education in the only foundation for morality, (God's Word), leads us to utter and complete social and personal collapse. The first three chapters of the Gospel of John in the Jewish New Testament explain who Jesus was and why he was born of God into a physical world. In essence the Word of God that created our genetic information became human flesh to take the responsibility and the blame for our sinful condition. (He became sin for us). He gave us by His Word, (His Law) the freedom to choose moral responsibility that in turn gives us the ability to love. So the Law that condemns all of us, God takes and sacrifices and condemns to death on our behalf. We were made to love God, love everyone - and to be loved by God.

But it all went wrong when the first man and woman opted out of pure love to become selfish. They and all their descendants became like instinctive animals, biting and devouring one another. *This is the history of the world and it is our history.* But now God has sent his Word, (the Curse of God on Man) to be accursed *in our place*. The eternal Sentence of death on all of us in our flesh, became flesh and was sentenced to death in His flesh - *again in our place*. The Promise of God that a Man would come and save the world from sin and death, is found in the resurrection of Jesus Christ - the same Very Word of God in victory over sin and death. His resurrection to a new and eternal life is again *on our behalf*. All he asks of us is to turn from our sin and selfish pride and trust his Word for something amazing to happen! God gives new birth that is a spiritual relationship with Him by His Word in a Spirit of resurrection power. Your independence is dissolved and you are now dependant upon the one Almighty God and Father of all life who is perfect Love and eternal Justice. Your old nature dies and the new nature of Christ in us lives. Cry out to God and pray in Jesus Name to your Heavenly Father for the forgiveness of your sin - your heart will change, you will be saved and set apart for eternal life. Get a good translation of the Bible and read all about it.

God Bless!  adelaidestreetpreacher@outlook.com
